Title of the Manuscript:	APPLICATION OF ARTIFICIAL INTELLIGENCE IN ECONOMIC ANALYSIS: AN OVERVIEW
Type of the Article	Short communication

**PART 1: Review Comments**

<b><u>Compulsory</u></b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This short manuscripts (2964 words) contains an overview of applications of the AI systems in economic analysis and accompanying ethical and practical (I would contend: legal) challenges. It can be useful as an introduction to scholars who want to gain initial knowledge in this field of study. It is written clearly and succinctly, covering techniques, applications and challenges of AI and using exemplary literature.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes. However, it might be considered too general. More precise title would be: AI in Economic Analysis: An Overview of Techniques, Applications and Challenges	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, it is sufficient for such a short manuscript.	
Are subsections and structure of the manuscript appropriate?	Yes, for this general overview.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	For a short overview of such a wide topic, this manuscript is scientifically correct. For the same reason, this manuscript cannot be scientifically robust and technically sound to the extent that proper scientific articles should be. Only thing that could be done was to exemplify and briefly explain the most significant techniques, applications and challenges of AI in economic analysis.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient and recent. However, they are not clearly indicated in the text (references 1-16 and 19). This is a major shortcoming of this manuscript,	
<b><u>Minor</u></b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<b><u>Optional/General</u></b> comments	This short manuscript is clear and concise. It exemplifies contemporary applications of AI in economic analysis and challenges if its application. It can be useful introduction in this field to scholars and general public. However, its major shortcoming is the lack of references in the text.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
