Minor REVISION comments **Is the language/English quality of the article suitable for scholarly communications?**		
Optional/General comments	Review Report for Ms_AJEFM_1770 Dear Authors, I have some suggestions that may help improve your manuscript: 1. I would recommend revising your abstract to follow this structure: Context (10%), Objective (10%), Methods (20%), Results (30%), Conclusion (20%), and Significance/Implication (10%). 2. Your manuscript does not adhere to the IMRaD article protocol: Introduction, Methodology, Results, and Discussion. I would suggest the following changes: a. Change 1.1. Introduction and Background to be 1. Introduction b. Merge 1.2 Statement of Problem into 1. Introduction c. Change 2.1, and 2.2 to be part of sub-section of Introduction. It means the numbering should be 1.1 and 1.2 accordingly. d. Move 2.3 Conceptual Framework to be a sub-section under Methodology, it means 3.1 Conceptual Framework e. Change 4.1 Data Analysis and Discussion to be Results. All existing sub-sections remain as are. f. I do not find solid discussion section on your paper. Please create a new section of 3. Discussion. In your new discussion section, you must present your academic position on your research results and compare them with previous research on a similar topic. You must also provide more concrete implications for academics, practitioners, and the government (if any). g. Your conclusion section is short. Please include other sub-subsections on limitations and future research avenues in the conclusion section 3. Other minor suggestion: Your English is good, but I find some grammatically errors, if you can have the revised draft proofed read by a native or professional, it will further enhance the readability.
